

PRESS RELEASE

16-04-2018 / Milan Design Week 2018

NAAMANKA News

NAAMANKA is a young Finnish brand presenting collection of furniture for public and private spaces. The whole collection is designed by Interior Architect, MA, Samuli Naamanka – the result of the furniture collection is long lasting high quality products with a strong identity. All the Clash products in the collection are produced in Finland.

ENVIRONMENTAL FRIENDLINESS

A new surface treatment in the collection *nitriding* is now a new option on the Clash 200 series furniture; black nitriding is a possibility on the metal parts of the furniture bases. In addition of the durability of the finish, the process does not cause any kind of waste as well emissions into the air. As a process, black nitriding has replaced in many industries other surface treatments.

NOVELTIES

The wooden Clash 300 range chairs are now a novelty in the Naamanka furniture collection. The serie includes five different type of chairs: an universal chair, two different height of stools and a lounge chair with two different type of bases.

All of these products suit well both for homes as for the public spaces.

TOGETHER.

Naamanka is presenting its novelties **Together** in the same exhibition with Rugs Kristiina Lassus at [Palazzo Litta](#) (room 13) during the Milan Design Week 2018.

Welcome!

SAMULI NAAMANKA, Interior Architect, MA

Interior architect [Samuli Naamanka](#) (born 1969) is known as a versatile and prize winning designer. As well as product design and interior design, Naamanka specialises in environmental design. His work includes furniture design, exhibition designs, environmental works and public works of art. Naamankas works are referring to the history, nature, architecture and symbolism.
